Welcome to Smith System

We design and build furniture exclusively for pK-12 learning environments. Every piece is optimized to account for how students work, learn, think and fidget across every age and stage. From the beginning, we work alongside you to create the best spaces imaginable for teaching and learning — school by school, classroom by classroom.

We don't make pK-12 furniture as part of what we do. It's the only thing we do.

Designed for every age, and every stage.

Early adaption.

From the first day of pre-K, furniture must adapt to the needs of shifty little learners. We design early education environments that stand up to these demands to help children thrive.

Formative years.

Design doesn't happen in a vacuum. Every consideration is made to provide elementary students the support and flexibility they need for success.

Growth spurts.

Kids grow quickly but at different paces. Our furniture is designed to grow with the student, while accounting for variations in size and shape and meeting everyone's own unique needs.

Social status.

Middle school presents its own challenges, but durability and comfort should never be sacrificed. We create unique spaces that serve as the foundation for collaboration.

Head of the class.

By high school, it's imperative to break down the barriers to engagement. Our furniture is proven to empower the next generation of learners and leaders.

Thoughtful furniture for inspired thinking.

At Smith System, we build furniture that students, teachers, parents and school boards all can appreciate.

Quality + Value

School districts are hungry to provide the best learning environment for their students. But not every district has the budget to match the appetite.

We don't think they should have to.

This simple belief has transformed us into obsessive fine-tuners who spend our days improving the way we design, manufacture, assemble and deliver our products, so that our customers can get high-quality furniture at a price every district can afford.

Service

When it comes to investing in furniture for students that will last long after graduation, service must go beyond how you answer the phone. We're on a mission to lead our industry by example.

For every type of school environment, we promise durable, purposeful furniture designed for your students' needs. And we do whatever it takes to deliver it accurately and on time.

Partnership

In more than 100 years creating solutions for schools, we've learned a few things. Most importantly, we've learned that working together with dealers, designers and school administrations results in what's best for the school, teacher and student.

Smart people working together to solve a problem leads to better outcomes. It's what makes coming to work every day fun.

Before you begin:

Explore our space, first.

SmithSystem.com is your launch pad. We've carefully assembled an online library of information to help you hone your knowledge and stimulate your imagination. It's the natural result when we have really passionate people with over a century of experience to share.

Find insights and inspiration.

Guides: modern classrooms, commons and makerspaces

BIM Files: Revit, 2D/3D DWGs; we're also up on 20/20 and Project Matrix

Videos: graduate movement, STEM environments and Cascade storage

Blog: current education trends, best practices and customer case studies

Continuing Education: AIA course and presentation outlines

Social Media: photo updates and news on Pinterest, Instagram and Twitter

We love to chat.

You've got questions and guess what? We have answers. Our online chatters are standing by to quickly answer what's on your mind and steer you in the right direction.

Or better yet, give us a call, and together we'll explore what your school needs and pick from our full array of options for fun, functional furniture. Two minds are always better than one, right?

We do not sell direct to schools, but we do have a trusted network of authorized local, regional, national and online dealers. Your dealer will help in making final choices, placing orders and installing your shiny new furniture.

Call us at 800.328.1061 or use our online chat system for immediate answers.

What we offer educators.

Innovative Design

Beautiful furniture designed to create comfortable, healthy and engaging learning environments.

Exceptional Customer Care

An attentive sales force, 24/7 support, and the best customer service in the industry.

Durable

Seating, desks, tables and storage units that stand up to decades of wear and tear from students (and their backpacks).

On-Time Shipping

Orders made fresh to your specs and shipped without delay — even during peak season.

Customization

An impressive palette of color options for laminate tops, edges, paint and chair shells. Boost school spirit, stay subdued, or go bold.

Modern Thinking

Product lines that connect students to modern curricula and current research on how kids learn best.

Value

A wise investment in quality furniture that has become the brand of choice for many of the largest school districts in the states and abroad.

Environmental Health

Our entire product portfolio is 100 percent certified to meet indoor air quality standards for children and schools through UL GREENGUARD.

Great Warranty

A limited 12-year warranty, with a lifetime frame warranty. Find out more at smithsystem.com/about-us/warranty.

That's what our customers love most.

Featured Products.

What's your new favorite?

We're excited to share the next generation of Smith System products that will transform your classrooms and learning spaces.

Theorem® Chair

As kids grow up, so do their seating needs. Smith System's answer to this challenge is the all-new Theorem Chair. In Theorem, we're offering young adult learners a task-based chair that's nothing short of comfort and sophistication.

See page 44

Behind the Design

"We were charged with taking Smith's successful Flavors chair concept further, into the pre-collegiate level. That meant designing a chair that was so comfortable, yet purposeful, that you could stay on task for a full eight-hour day.

A nylon shell is unique in the K-12 market. It costs a bit more, but it's worth it. Foremost, nylon is very strong, so even though Theorem's one-piece shell is only 4 millimeters thick, it doesn't need back ribbing or heavy hardware to be durable. That minimal depth also keeps the shell flexible and gives the chair a sleek profile and rearview, with clean, thin edges. This makes Theorem unlike anything currently on the K-12 market."

— Roger Carr
Radar GB, London

New Theorem Arm Chair (left) and new Theorem Wire Rod Frame Chair and Stool (right).

New 14" and 16" Groove Chairs.

Groove® Chair

Its name may sound old school, but Smith's new Groove chair line brings modern, high-tech design to current educational environments. The result is K-12 seating that delivers impressive ergonomic and aesthetic benefits.

See page 38

Behind the Design

"It's about getting into the groove of learning faster. Groove is immediately supportive and comfortable for students. They can feel great and get to work, with less settle time. Subconsciously, we all try to find that sweet spot when we first sit down. When a chair is comfortable, we don't really think about it. But if it's uncomfortable, we squirm and shift and move continuously. It's distracting.

Groove has a larger surface with a gentle contour and slightly higher upper-back shell to spread the student's weight over a larger surface area. But we use a slim "waist" design with good lumbar support, so kids can turnaround easily and maintain good posture."

—Dorsey Cox
Dorsey Cox Design

Soft Rocker and Ottoman

The Soft Rocker and Ottoman are ideal for individual study and casual group-work areas – reading nooks, your commons, libraries and media centers, or any collaboration hot spot. The generous seat back and seat pan easily accommodates older teens and adult staff. But by keeping the overall chair height to just under 26 inches, little learners can quickly settle in, too.

See page 78

Behind the Design

Great ergonomics make this chair the ultimate form of comfort. The high-density foam core provides the right amount of relaxing give, while a compact, hardwood frame ensures a sturdy sit. The slight pitch in the back support and subtle curve in the base encourage safe, smooth rocking. It's irresistible, even for adults.

Accidents happen. The 100% EPU Polyurethane (vinyl) fabric is easy to clean with a 4:1 water-bleach solution. Simply mist, wipe, and relax.

We set out to demonstrate that upholstered K-12 seating can match the standard of durability we've set for all of our furniture. We used corner blocking at load bearing connections, a webbed back frame, and hearty vinyl that can stand up to any test.

Cascade® Maker Table

New for this year, the Cascade Maker Table provides an all-in-one workspace to create, store and create some more. The broad surface and optional lockable storage help you re-imagine the ease and efficiency of your Maker space in a simple, mobile and multi-functional unit.

See page 242

Planner® Studio Table and Bench

The Planner Studio Table and Bench combo is setting a new standard for modern collaboration. With single or double seating options, the Planner Bench is as versatile as it is colorful, quickly adapting to any learning environment.

See page 172

Planner® Studio 30" Table

The Planner Studio Table is setting a new standard for modern collaboration. With single or double seating options, the Planner Bench is as versatile as it is colorful, quickly adapting to any learning environment.

See page 172

Planner Studio Whiteboard

The Planner Studio Whiteboard perfectly complements our Planner Studio line of tables to create a unique and creative environment for today's learners. It provides a sophisticated-looking two-sided mobile writing surface and includes a small shelf located on both sides to hold markers and erasers.

See page 183

Behind the Design

"We were asked to design a companion piece to the Planner Studio line. The whiteboard matches the style and function of the Planner Studio series to create a bright and cohesive space.

Students need ease and movement to create, and we want to continue building that experience, to enable collaboration and the effortless flow of ideas. We tried to pack in as many features, from the marker and presentation ledges down to the lockable casters for quick start-stop mobility."

– David Williams, Designer

Elemental® Nest & Fold

Elemental Nest & Fold Tables provide a stable, spacious work surface and contemporary appearance. They offer added utility when not in use through their easy mobility and compact storage. Because they're part of an integrated line of tables and desking, they allow a consistent design scheme throughout the building or facility.

See page 138

Shown with new Theorem® Wire Rod Frame Chairs. See page 47.

Oodle®

Instead of a chair, pull up an Oodle. Ideal for collaborative learning and common areas, Oodle is easy to gather into a circle, arrange around a table or stack up at a counter.

See page 72

Behind the Design

Award-winning designers Joe Ricchio and Charlie Patterson of Ricchio Design, developed the Oodle stool. They envisioned a bold, graphic form — simple cylinder — to bring to life Smith System's idea for movement-optional seating.

The result is something completely new. Joe says, "Oodle is more fun, straightforward and casual than other movement-friendly classroom furniture. The simplicity and multi-function capability are real benefits."

The broad dimension, mix and match stackability and innovative rocker base add up to a fun and functional space maker.

Moving at the speed of learning.

Our singular focus on pK-12 furniture allows us to stay on top of emerging trends for new and unique spaces. From classrooms to makerspaces, every room has its purpose and its opportunity for innovation. That's why we move quickly to create solutions that fill real needs, based on the demands of modern learning environments.

Collaborative Learning

Whether it's peer-to-peer or larger groups, team collaboration is now the norm. Learning is a social act, and a student-centered classroom gives kids more time to think about, talk about and process information together.

Flexible Seating

Also known as "alternative seating," a flexible-seating classroom lets students diplomatically decide where and how to park their bodies. It means providing options to sit, stand, kneel, wiggle or rock — and adjust furniture to their size.

Makerspaces

Some call it this. Some call it STEM or STEAM. Either way, it's an incubator for problem solving, creativity and collaboration. It must remain a highly versatile hotbed of engaging zoned spaces, materials and tools.

Customized/ Personalized Learning

Technology has made custom teaching to the needs of each individual student possible. It means giving them choices, which is empowering. And empowered students learn more and they learn better.

Active Seating

Sitting perfectly still is uncomfortable, if not impossible, even for adults. Active-seating chairs encourage natural movement by offering varying degrees of torque. These chairs move with, rather than against, active students, especially the fidgeters.

Re-Imagined Spaces

New challenges require new environments. Libraries are now media centers; science rooms are tech labs and computer labs; cafeterias are catchall commons. These spaces have unique furniture needs, among them versatility, durability and comfort.

Elementary Classroom

Teaching styles and classroom layouts vary wildly in elementary school. At the K-4 or K-5 age, teachers want learning and communication on track, but lighter. Students are still learning through play. They need engaging, hands-on opportunities for meaningful learning. They want to experiment and be experiential in a comfortable, predictable environment.

Oodle®
See page 72

Pre-K Classroom

Busy minds drive busy bodies. Create a welcoming, organized environment tailored to whirlwind tots and their teachers. Child's play? Hardly. Whether you call it Pre-K, preschool or early ed, ages 3 to 5 are prime time for development. Students will begin to learn essential academics, social skills and self-control, mostly through play. Set the stage for these little sponges.

Elemental® Moon Table
See page 128

High School Classroom

High school is time to prepare for higher education and the future workplace. The high school classroom should provide real-life settings where students focus on real-world problems. During high school, a student's future slowly starts coming into focus. Educators need to teach what employers want in the next generation: critical thinking, team collaboration, creativity and problem solving.

Interchange® Crescent Table
See page 108

Middle School Classroom

Classroom furniture should help kids discover their interests and hone critical thinking, within a structured environment. Students in grade 5/6 to 8 are in the middle. Physical, social and emotional growth is truly in flux. Academically, they are exploring new ways of thinking, with more intensive subject work — and socializing. Teachers need tools that focus student attention without (gasp) drawing attention.

Multimedia Tables
See page 116

Makerspaces

Tinker, create, explore, fail. Makerspaces promote them all by providing a range of tools, from high-tech to no-tech, that encourage experimentation. The ideal makerspace furniture helps manage materials and projects, without getting in the way.

Planner® Studio Tables

See page 172

Open Spaces

Students are more tech-savvy than ever. Technology is practically in their DNA. Likewise, tech labs and computer labs must be ready to accommodate everything from beginning coding to high-level robotic competitions. We make the lab furniture to handle that spectrum.

Planner® Studio Whiteboard

See page 183

Seating

Seating is unique as a fingerprint. Students sit in thousands of different positions; upright, slouched, twisted and tilted. They stretch out their legs, sit on them, cross them and bounce them. They will balance on their chair or teeter on the back, tempting gravity — and common sense.

Built for Learning.

Seating

Learning has evolved. Seating has adapted.

Like all of our furniture, our seating concepts were developed for pK-12 students. From their very specific size ranges to their innovative contours — these chairs and stools are ready for learning in any environment or situation.

Plato®

Allows more movement, so students can face front and both sides. This Euro-spec chair provides a wide seatpan, flex and pronounced lumbar support to encourage good posture and breathing. [See page 62](#)

In2it®

Conceived to contain movement and direct attention straight ahead. It works like a bucket seat, providing back and shoulder support, while orienting the student toward the front. [See page 68](#)

Oodle®

A revolutionary new active seating line that puts the fun in classroom functionality. Featuring a unique movement disc base that allows for 10 degrees of movement. [See page 72](#)

Soft Rocker

Smith System offers a new style of movement based active seating in our Soft Rocker. Children, adolescents and even adults love the rocking motion and natural engagement it provides. [See page 78](#)

Groove®

Immediately supportive and comfortable. Students can feel great and get to work, with less settle time. The ergonomic seatpan and subtle shell contours support movement in a working posture at a desk and sideways sitting. [See page 38](#)

Theorem®

Offers two major seating positions — vertical and slight recline — to perfectly support high school learning. The chair's seat is contoured 5.5 degrees, which is deeper than most stacking chairs. [See page 44](#)

Flavors®

Offers maximum movement and four seating positions. Its seatback flexes front to back and torsionally, allowing students to shift and move without chair resistance. [See page 52](#)

Which ergonomics matter most?

Here are some ways administrators can get the most ergonomic bang for their buck.

Right Fit/Adjustable.

- Both seating and desks need to be properly scaled to fit the size of the individual student.
- We offer a wide range of heights in seating — typically four or five per product line. Our desking lines are adjustable in height as well.

Right Size.

- Properly sized classroom seating supports healthy posture and decreases fidgeting.
- Students should be able to sit with their feet firmly planted on the floor and their backs against their chairs.

Function.

- 21st century learning often requires seating to be moved throughout the day, so chairs must be light enough, or fitted with casters, to allow students of all ages to move them quickly and easily.

Seating That Doesn't Fight The Student.

- A chair that allows some movement on the part of the student can promote learning. But how much movement?
- Consider our Graduated Movement Concept, a design idea educators can use to tailor the ergonomics of the classroom furniture to support the curriculum. Through subtle differences in design, our In2it line gently limits movement, Plato allows moderate movement and Flavors permits utmost movement.

Get into the Groove.

Stack Chair

Mobile Stack Chair

Fixed Height Stool

Adjustable Chair

Adjustable Stool

Flex you can feel.

Groove is designed with a “flex” seat surface. The gentle contour and slightly higher upper-back shell spread the student’s weight over a larger surface area. The slim waist design and strong lumbar support, so kids can turnaround easily and maintain good posture.

Streamlined aesthetic.

High-tech injection molding not only keeps the seatback strong and flexible, but it eliminates the exposed structural “ribs” on the back of the chair’s shell. We also used a smaller tube diameter for the frame. Groove doesn’t look like an institutional classroom chair. It’s sleek and calm, yet familiar. It’s a crossover chair that quietly blends in anywhere: classrooms, cafeterias, flex studios, maker spaces and more.

Three-position ergonomics.

Kids are creative sitters! The ergonomic seatpan and subtle shell contours support movement in a working posture at a desk and sideways sitting. A gentle flex at the top of the shell opens the contours up for a reclining position. Groove also features a generous waterfall seat front to support circulation to students’ legs and feet.

Modern manufacturing.

New for Groove, we used a more modern injection molding technique for the polypropylene shell. This means the plastic is left thicker for more strength in high-stress spots, and thinner for less-stress areas. The result means more flex and less chair weight without sacrificing strength.

Grown-up thinking.

Older teens straddle high school and young adulthood. Though still “kids,” they don’t want anything childish, including classroom furniture. Smith System offers an answer with Theorem, a new seating line for young adult learners.

One for all.

Theorem serves high schoolers across the entire spectrum of body sizes and types. Theorem is ergonomically designed to give a smaller person the right amount of shell movement and give a larger person adequate support. Chair frames give strong support for the seat, but can also withstand some heavy handling.

Positioned for success.

Theorem’s two major seating positions — vertical and slight recline — are perfect to support high school learning. The chair’s seat is contoured 5.5 degrees, which is deeper than your typical stacking chair. This helps position the sitter’s weight back into the seat for a more supported upright sit. It also makes the angle between the top back and seat more shallow (about 90 degrees), so the sitter’s upper back is balanced over the lower spine; the lumbar region always stays in contact with the chair.

Nothing but nylon.

Rare in the pK-12 market, Theorem offers unmatched strength with a nylon shell. So even though Theorem’s one-piece shell is only 4 millimeters thick, it doesn’t need back ribbing or heavy hardware to be durable. That minimal depth also keeps the shell flexible and gives the chair a sleek profile and rearview, with clean, thin edges. This makes Theorem unlike anything currently on the pK-12 market.

Model 44820
Shown in Platinum
with Chrome frame.

Theorem Wire Rod Frame Chair Available Summer 2020

A new seating line designed for 9th to 12th-grade students. Two major seating positions — working and slightly reclined — are perfect to support high school learning. Unlike traditional school chairs, Theorem provides the feeling of continuous support, whether the student is sitting up for table surface work or looking up to participate in discussions. Shell available in 10 colors, frame in chrome only. **Wire rod frame in chrome finish.

- The shell rests on the frame, not rivets, to add comfort.
- Unique nylon shell offering unmatched strength.
- Stacks four chairs high.

Freedom of movement.

Flavors seating eliminates as many restrictions to student movement as possible.

- A relatively flat seatpan with a waterfall front allows the student to comfortably face front, back and either side.

Less restricting to the shoulders and spine.

To further enable the student to work with students on either side, the seatback provides torsional flex — allowing the student to gently twist to face left or right.

Move, breathe and concentrate.

A subtle front-to-back flex allows the student to move and adjust their posture, which promotes better concentration.

For classrooms that move and students of all sizes.

- Flavors seating is light enough for most students to move in the classroom without a problem.
- Achieve additional mobility with casters on the Adjustable Chair, Stools and Mobile Stacking Chair.
- Stacking models come in six sizes, so you can pair the appropriately sized chair with the student.

Construction. Built for the demands of a school environment.

- The durable, high-density polypropylene shell stands up to the challenges of a real-world classroom.
- Made of 18-gauge welded steel, the frame is protected with chrome plating or a rugged powder coat finish.
- For added comfort, the shell rests directly on the frame (not on the rivets).

Adjustable Chair (A-Shell)

Adjustable Stool (A-Shell)

Student seating with patented movement.

Educators agree that allowing movement encourages better breathing and helps students concentrate. The Noodle Chair represents a practical solution for classrooms everywhere.

It feels like sitting on a ball that won't roll away.

The seatpan tilts front to back.

The seatpan tilts side to side.

Flavors Noodle Chair

The Noodle Chair is designed to help the student concentrate and be healthier. It has a patented suspension that allows it to move with — not resist — the student. It provides all the benefits of sitting on a large ball, but with the added advantages of more stability and back support. The Noodle Chair is perfectly suited to fidgety students. Available in 18 colors.

- The shell rests on a patented suspension, allowing the seatpan to tilt slightly in all directions.
- A four-position chair offering the utmost freedom of movement.
- High-density polypropylene shell with color throughout.
- Durable swivel-base glides with non-staining nylon bases and chrome-plated steel covers, come standard. Or choose optional felt or stainless steel glides.
- The legs are strong, 18-gauge welded steel with a durable chrome or platinum finish.

The seatpan tilts 7° side to side.

The seatpan tilts 5° front to back.

Fixed Height Stool

Adjustable Stool

Adjustable Chair

Support, with freedom.

Plato seating is a three-position chair, allowing the student to comfortably face the front and both sides. The “Euro-Spec” seatback draws on the design of European school seating where lumbar support is closely studied and mandated.

- The seatback flexes to provide relief from a fixed, rigid seating position.

Better posture and better breathing.

Studies show a link between improved student posture and a number of health benefits, including better breathing, as well as academic benefits, including better concentration.

A solid choice for classrooms of all kinds.

Plato seating is well-suited for collaborative classrooms as well as traditional classrooms. It allows students to work with others on either side, yet for individual study and lectures, it helps them stay alert and focused.

For classrooms of all kinds and students of all sizes.

- Plato seating is light enough for most students to move in the classroom without difficulty.
- Achieve additional mobility with casters on the Adjustable Chair, Adjustable Stools and the Mobile Stacking Chair.
- Stacking models come in three sizes so you can pair the appropriately sized chair with the student in all grade levels.

Construction. Built for the demands of a school environment.

- The durable, high-density polypropylene shell stands up to the challenges of a real-world classroom.
- Made of 18-gauge welded steel, the frame is protected with chrome plating.
- For added comfort, the shell rests directly on the frame (not on the rivets).

Plato Stack Chair

The Plato Stack Chair provides roominess for today's growing students through its oversized seatpan. Built to what's called Euro-Spec (short for European Specifications), the seatback offers some flex front-to-back and provides pronounced lumbar support, encouraging good posture and breathing. Its fresh, yet familiar shape connotes comfort to the student. 14", 16" and 18" sizes.

- The shell rests on the frame, not rivets, to add comfort.
- High-density polypropylene shell with color throughout.
- The legs are strong, 18-gauge welded steel with durable chrome or platinum* finish.
- Stacks 5-6 chairs high.
- Durable swivel-base glides with non-staining nylon bases and chrome-plated steel covers come standard. Or choose optional steel or felt glides.
- Available in 18 seat colors.

*Platinum frame available in 18" stack 00950 and 18" mobile stack 00953.

Plato Mobile Stack Chair

The Plato Mobile Stack Chair provides roominess for today's growing students through its oversized seatpan. Built to what's called Euro-Spec (short for European Specifications) the seatback offers some flex front-to-back and provides pronounced lumbar support, encouraging good posture and breathing. Its fresh, yet familiar shape connotes comfort to the student. Mobility makes ingress/egress easier and allows classroom configurations to change quickly throughout the day.

- The shell rests on the frame, not rivets, to add comfort.
- High-density polypropylene shell with color throughout.
- Durable casters add mobility.
- The legs are strong, 18-gauge welded, steel with durable chrome or platinum finish.
- Stacks 5-6 chairs high.
- Available in 18 seat colors.

It comfortably directs attention straight ahead.

For contemporary classrooms and students.

The In2it chair was designed to make the student feel comfortable before even sitting down through its use of familiar, graceful curves.

- The chair's inviting shape gives an honest indication of how comfortable it is.
- The bucket design provides great back and shoulder support while offering just the right amount of flex.

Built for the demands of a social environment.

- The durable, high-density polypropylene shell stands up to the challenges of a real-world classroom.
- Made of 18-gauge welded steel, the frame is protected with a rugged powder coat finish.
- For added comfort, the shell rests directly on the frame (not on the rivets).

Stack

Mix

Move

Meet Oodle.

Often our pursuit of designs that inspire the minds of students takes us to places we never would have imagined even five or 10 years ago. One such result is here. Meet Oodle, the all-new active seating line that is as fun to explore as it is to say.

Switch it up.

Keep your space fresh by switching things up in a flash. You're never stuck with one height or one color. And the unique rocker base system maximizes versatility. Sit flat, or sit with movement, on the very same stool.

Moving up.

The colorful 6 1/2-inch sections stack and twist to engage a unique stool-to-stool locking system. Educators can easily assist students to make the stool taller or shorter.

Holding up.

Oodle's 17-inch diameter is perfect for all ages and sizes of student. Sturdy polypropylene material holds up to all elements.

Seating Oodle®

Choice of movement.

Make it move!

To add movement to Oodle, simply flip the movement disc over to the curved side, this will provide the student with a comfortable (and fun) 10 degrees of movement in all directions. Just the right amount — Oodle never feels unstable.

Make it stop!

Let's face it, active seating isn't for every student (or every situation), for those students and situations, the movement disc is easy for a teacher to flip and remove the movement from Oodle. To stack Oodle or sit flat, turn the movement disc over to the flat side and lock into place.

Oodle Movement Disc
Patent pending. Movement Disc is inserted and locked into base. Flip 180° for no movement.

See more:
meet-oodle.com

Oodles of possibilities.

The unique base design incorporates a structural disc that when flipped 180 degrees provides the student with the ability to wiggle. Or, if the student or teacher chooses, sit flat. Model Oodle31 comes with three sections and one rocker base. Model Oodle33 comes with three sections and three rocker bases.

Seating Oodle®

Oodle Stools and Elemental 6-Star Table
Oodle stools shown in Apple, Charcoal and Platinum.

Oodle seating paired with Elemental Tables and Flavors Seating.

Mix, match and stack.

To stack, rearrange your colors or use Oodle in different configurations. Restacking is a breeze, just find the circular indicator and snap Oodle into place.

Pair Oodles with matching tables from our Elemental® and Planner® Studio lines or match edge band colors from our Interchange® table line.

See pages 88, 122, 168

Choice of height.

Because Oodle comes in three 6 1/2-inch sections, teachers don't have to be stuck with a single height stool in their classrooms and commons areas. And students are free to choose the height they feel most comfortable with for the activity at that moment. For example, four 19 1/2-inch Oodles can be used as six 13 1/2-inch Oodles in the morning, and twelve 7 1/2-inch Oodles in the afternoon.

Height with Rocker Base Disengaged

Height with Rocker Base Engaged

All students welcome.

Students come in all shapes and sizes. In the design of Oodle, we considered every body type. With 17 inches of seating surface, larger students will feel just as welcome using an Oodle.

Seat diameter measures 17" Ensuring every student feels comfortable, weight limit 250lbs.

Comfortable motion.

Featuring a modest 10 degrees of motion, Oodle's edge is designed to catch a student before he or she is able to lose their balance. And, of course, motion is optional on Oodle.

Oodle moves only so far before the built in 'stop' engages at 10° of rocking. This prevents the user from feeling unstable.

Rock longer.
Rock softer.

Something soft from Smith System.

For kids in need of action, we introduce our first soft-finish rocking chair. The Soft Rocker provides open, multi-position seating ideal for engagement across learning environments. To complement the Soft Rocker, we've also designed a soft finish, multi-purpose ottoman. Together, the Soft Rocker and Ottoman are the perfect complement to any classroom or commons area and provide a higher class of comfort and durability for kids at every age.

Soften your space.

Add a new element of comfort with the Soft Rocker and Ottoman. The Soft Rocker provides a functional and mobile experience that keeps kids in comfort and collaboration even longer.

Rock the day.

Just as kids are built to move, so is this rocker. Help kids get more out of their learning environment by creating space for everyone.

Built to last.

The highly durable, highly washable polyurethane fabric suits classrooms of all ages and easily wipes down at the end of the day.

Seating Soft Rocker

NEW!

Model 55000
Shown in Sprout and Oriole fabric.

Soft Rocker

The Soft Rocker offers a new style of movement-based active seating. The rocking action promotes engaging interaction with others. Children, adolescents and even adults love the rocking motion of the Soft Rocker.

The Soft Rocker is constructed of durable, kiln-dried, solid hardwood with a poplar plywood frame, which is corner blocked at load-bearing connections. The back frame is webbed for structural integrity. The seating pad is made from high-density foam meeting FR CA117 standards and contains no added flame retardant chemicals.

- Momentum Textiles 100% EPU polyurethane fabric.
- 900,000 D.R. Durability rating.
- CA117.
- Polyester fabric backing.
- Easily cleanable with a 4:1 water:bleach mixture.

Desks & Tables

Today's learning environments present an unprecedented challenge to desks and tables, demanding greater versatility and durability. Our desks and tables are designed for multiple reconfigurations — pods, pairs, rows and more — and are reinforced to withstand the constant movement.

Built for Learning.

Desks & Tables

Interchange®

Meeting Tables

See page 204

Beyond design, consider how it's engineered and built.

Mobile

In collaborative learning classrooms, students have to be able to move desks and tables without help.

Reconfigurable

Today, the shape of desk and table work surfaces must allow the furniture to fit into a compact pod for small group work and work in pairs, or make them suitable for individual work.

Future Proof

Desks and tables are moved constantly. They must be built strong to withstand this use well into the future. Their shapes must add functionality with future use in mind, rather than contributing gimmicky, non-functional arrangements in the classroom. Learn more at smithsystem.com/collaborative-desks.

Functionality

- "Pie-shaped" desktops allow students to make compact pods for working in groups.
- Casters provide needed mobility for the desk — don't make students drag them across the floor.
- The suggested minimum workspace is 27 inches.

Durability

- Structural Framing — steel reinforcing beams attach to each leg, adding rigidity and preventing wobbly legs. Don't settle for Easy On Brackets on tables and desks in collaborative learning classrooms.
- The T-Mold edge band, used on Smith System Desks and Tables, is stapled every 6 inches to provide superior fastening power.

Right Size

Fitting the chair and desk or table to the student is important, as a proper fit helps academic performance while a poor fit hinders it.

27in. Suggested minimum workspace

Healthy Construction

Smith System desks and tables are made for healthy learning environments, and are UL GREENGUARD Gold Certified.

Suggested Desk and Chair Heights:

Table Height	~19"	~22"	~24"	~27"	~29"
Chair Height	10"	12"	14"	16"	18"
3-4 year olds	50%	50%			
Kindergarten		50%	50%		
Grade 1			100%		
Grade 2			25%	75%	
Grade 3-4				100%	
Grade 5				50%	50%
Grade 6-12					100%

Dependability

Smith System backs its tables and desks with a lifetime warranty on the frame and legs and a 12-year warranty on tabletops and desktops.

Availability

Smith System employs lean manufacturing techniques, allowing us to make tables and desks to order and Quick Ship them.

Optimize classroom space with Interchange Wing Desks.

Interchange Wing Desks allow great flexibility when it comes to creating compact pods of two, three and four students. The flexibility comes from the shape of the desktop. Its pie shape allows four students to work in a very compact area. Three students, even smaller. Two students can work almost side-by-side, facing or at an angle — whichever suits their activity.

Optional Backpack Hook Model 67638 \$ 8.00

Keeps floors tidy and backpacks handy.

Six Interchange Diamond Desks form a compact group with ample space to work. Shown with optional Apple Casters, 17577.

Put two Interchange Diamond Desks together and students can work in a pair.

Three Interchange Diamond Desks approximate a semi-circle for three students.

Interchange Diamond Desks

This contemporary desk designed for collaborative learning classrooms provides sleek looks and solid functionality. It can be arranged in compact groups of up to six. Its large work surface provides ample space for projects and work of all kinds. Order in any of 14 standard laminate colors, 20 edge colors and Black or Platinum frame.

- Durable desktop available in 1 1/4" or 3/4" thickness, with a high-pressure laminate surface.
- Edge moldings resist wear, choices available (see chart).
- Rugged powder coat surface on legs resists wear.
- 1" adjustable leveling glides provide stability on uneven floors.
- Adjustable desk height, adjusts in 1" increments. Only three (not four) legs to adjust on Single-Student Diamond Desk.

Model	Description	D"	W"	H"	F.C.	Cube	Wt.	UPS

Nest & Fold

Elemental simplicity.

The Elemental line comes with a variety of fun shapes. Mix up your collaborative spaces with stars, trapezoids, squares, moons, sprockets and interlocking Yin-Yang designs.

A surface with a depth of possibilities.

The Elemental line is a great surface to be certain. But it's what's below that really counts. Customize your shape with a full selection of adjustable legs and casters for a fun and modern upgrade to your space. And as with every product from Smith System, Elemental tables are built to stand up to any classroom activity or experiment.

Let your colors fly.

Now, every facet of the Elemental line is another opportunity to demonstrate school pride or just add some variety to your classroom color scheme. Mix and match surfaces, legs and casters for a limitless mix of fun and funky possibilities.

Colored casters and matching colored leg sets

Elemental Nest & Fold

Elemental Nest & Fold Tables provide a stable, spacious work surface and contemporary appearance. They offer added utility when not in use through their easy mobility and compact storage. Because they're part of an integrated line of tables and desking, they allow a consistent design scheme throughout the building or facility. Choose from 14 standard laminate tops and 20 standard edge colors. Frames available in platinum, charcoal, apple, cerulean and orange.

Customize your Elemental Part Number.

Here's our simple system for ordering Elemental tables exactly the way you want them.

1. Decide what features and options you want.
2. Find them in the columns below.
3. Write them down in sequence.

Or just pick a pre-configured model and all you have to do is specify your color choice.

Remember! Casters sold separately due to color choices.

Desks Silhouette®

Simple in form, these desks keep the focus on what matters most.

Silhouette Desk

Two-Student Silhouette

Arc Desk

Sequence Desk

Curve Desk

Technology Desk

The standard desk that sets a new standard.

Stable.

The Silhouette desk is a contemporary, economic solution for all classrooms. Its durable cantilevered design, adjustable legs and optional storage accessories make it a timeless favorite. Single- and two-student options are available.

Strong.

It provides a notably strong surface that can withstand heavy loads and daily wear. A practical backpack peg is standard. Optional accessories include steel book box, wire book basket and Cascade® Storage tote trays.

Stunning.

Sometimes, elegant simplicity is all you need in a student desk. That's where Silhouette shines.

Desks Silhouette®

Model 01650. Shown in non-standard Blond Echo top with Platinum edge and Platinum frame. Optional SW tote tray, Model 30925 and optional 18" Flavors® Stack Chair, Model 11849.

Model 01661. Shown in Asian Night top with Fuchsia edge and Platinum frame. A practical backpack peg is standard.

Model (2) 01650 and (1) 01661 Shown in Boardwalk Oak top with Mint edge and Platinum frame. Also, Groove® Mobile Chairs in Mint.

Silhouette Desk — 18" and 20" Deep

The Silhouette Desk is a contemporary desk that combines elegant design, durability and functionality. It's stable and strong, and its leg design allows easy ingress and egress. A backpack peg is standard. Choose from three Bookbox options.

- Choose from three durable desktops, 1 1/4" thick or 3/4" thick with high-pressure laminate surface, or hard plastic.
- Cantilevered design allows easy ingress and egress.
- Adjustable leg height from 19"-31" in 1" increments. Only two (not four) legs to adjust.
- Rugged powder coat surface on legs resists wear.
- Lockable endcap/glide combination that resists tampering.
- Choose from fixed-height or adjustable frame.

Silhouette Arc-8 Desk

Chosen for collaborative learning classrooms, the stable Arc-8 Desk offers ample workspace and exceptional ingress and egress to the student — crucial in an active classroom. This design saves time whenever she/he stands up or sits down. Choose from 14 standard laminate colors, 20 standard edge colors and Black or Platinum frame colors.

- Leg shape allows easy ingress and egress for students.
- Desk height adjusts from 19"-31" in 1" increments. Only two legs to adjust.
- Durable desktop available in 1 1/4" or 3/4" thickness, all with a high-pressure laminate surface.
- Edge moldings resist wear, choices available (see chart).
- Rugged powder coat surface on legs resists wear.

Flexline Technology Desk

Choose the Flexline Technology Desk for easy ingress/egress for students, a strong, stable work surface and for its ingenious Wire Manager that keeps cabling stowed neatly out of sight. Features two handy backpack pegs. Choose from 14 standard laminate colors, 20 standard edge colors and two frame colors.

- Durable desktop is 1 1/4" thick with a high-pressure laminate surface.
- Edge moldings resist wear, choose Bumper T-Mold (standard) or 4mm T-Mold.
- For maximum stability, a 14-gauge steel mounting plate is welded to a Y-Leg made of 16-gauge steel tubing.
- Our patented backpack peg is on both the right and left leg, allowing backpacks to be hung under or outside the desk.
- Legs adjust from 19" to 31" high in 1" increments.

Stable foundation.

What sets Planner desks and tables apart is their rock-solid bases.

- Steel legs, one at each corner, welded to two steel cross members at each corner.
- Heavy gauge steel modesty panel bolted to each leg across the front.

Unbeatable construction.

- T-Mold edge bands on Planner desks and tables are stapled every 6 inches to provide superior fastening power.
- The work surfaces are high-pressure laminate that stand up to heavy use.

For collaborative learning or traditional classrooms.

- Huddle desks provide tremendous durability in collaborative learning classrooms.
- Planner student desks offer the same strengths in traditional classrooms.

Healthy construction.

- UL GREENGUARD Gold Certified.

Offering flexibility, functionality and mobility.

- Planner student desks are available in a variety of sizes including two- and three-student models.
- Huddle desks are available in three sizes.
- Built-in backpack pegs keep classrooms tidy.
- Steel Bookboxes and caster sets available.

Planner activity tables' versatility is a strength.

- Work surfaces available in Trapezoid, Square, Round, Half-Moon and Contour shapes.
- Trespa® TopLab® Plus surfaces available for labs and art rooms.
- Modesty panels available.

Dependability.

- Lifetime warranty on the frame and legs, 12-year warranty on table and desktops.

Tables Planner® Studio

Planner Studio Tables — 30", 36" & 42" Deep

These tables are designed to meet the needs of today's creative learning spaces. These sophisticated 29"h, 36"h and 40"h tables meet the demanding needs of your Makerspace, without the pared down "shop-class" aesthetics. The adaptive urban industrial style allows for crossover application in media centers, active learning spaces, common areas or any space that encourages collaboration and social learning.

- Strong, 14-gauge steel legs are protected with a durable powder coat surface.
- Sturdy 1 1/4" desktop with a high-pressure laminate surface.
- 3mm flat edges.
- 3 top colors and 5 leg color choices. 30" D Platinum leg only.
- Optional second surface shelf kits available on stand-up models 36" & 40", in Grey only.
- Optional foot rest available for 30", 36" & 42" height Studio tables, Platinum finish only.
- Planner Studio comes standard with 4" diameter casters, with all 4 wheels lockable.

Planner Studio Tables – Butcher Block

The sturdy legs match the Planner Studio series and come in Studio's 5 colors. Meet the demanding needs of your Makerspace, without the pared down "shop-class" aesthetics.

- Strong, 14-gauge steel legs are protected with a durable powder coat surface.
- Sturdy 1 3/4" solid birchwood butcher block.
- Butcher Block Tables come in three sizes: 36"x72", 30"x60" or 48"x48" only.
- Butcher Block tops are a natural wood surface and each top is unique, no two are alike.

Huddle-6 Student Desk, Model 01265
Shown with optional Steel Bookbox, Model 17015. Optional 17576 Casters.

Huddle® Student Desk

This compact collaborative learning desk offers maximum strength and stability. Its size allows more students to fit in a classroom and its trapezoid desktop enables compact circles to be created for group work. Features handy backpack peg. Choose from 14 standard laminate colors, 20 standard edge band and two leg colors. See size choices, below.

- Patented backpack peg that keeps student items organized, can be positioned inside or outside of either leg.
- Adjustable desk height, from 22"-32" in 1" increments.
- Durable desktop available in 1 1/4" or 3/4" thickness, all with a high-pressure laminate surface.
- Steel front panel adds stability.
- "H" Frame construction adds strength.
- Rugged powder coat surface on legs resists wear.
- Leg sets don't shimmy or rock.

24"d x 72"w. Shown in non-standard Grey Mesh top with Blueberry edge and Platinum frame.

Model 25520
30"d x 60"w. Shown in Flax Linen top with Cerulean edge and platinum frame equipped with 3" casters, Model 17576.

Model 25700
42"d x 60"w. Shown in Fusion Maple top with Charcoal edge and Platinum frame.

Planner Rectangle Activity Tables

This table offers maximum strength and stability for a wide variety of classroom uses. Three height ranges available allow you to fit the table to the grade range of the student. Choose from 14 standard laminate colors, 20 standard edge colors and two leg colors (Black and Platinum).

- High-pressure laminate surface resists wear.
- Choose from several edge treatments.
- Table height adjusts 24" to 34" in 1" increments, meets ADA requirements.
- 1" adjustable leveling glides provide stability on uneven floors.

Structural Framing

20", 24", 30" & 36" deep Models
Center support channel is 2" by 3" wide of 14-gauge steel, with 11-gauge steel endplates for maximum stability.

Structural Framing

42" & 48" deep Models
Two 2" x 3" 14-gauge steel support channels with 11-gauge steel endplates provide maximum stability.

*Please note: When ordering a power unit (p. 252), it cannot be placed in the center of 20" deep, 24" deep, 30" deep or 36" deep models.

This symbol indicates you can add power to select tables.

You will find the "ADD POWER" logo throughout this catalog. It signifies which Smith System tables are compatible with our power units.

When ordering, please submit a drawing with your order to indicate the desired positioning of the power unit on the work surface. All power accessories are special order, a custom feature per table and are non-returnable. For more information call 800.328.1061.

More options for collaborative and distance learning.

From now on, students will be working together on all of their academic subjects. In some cases, they may work on two or more subjects at the same time. Additionally, more and more students are participating in “distance learning,” receiving lectures or instruction via video from teachers located away from the classroom.

These new methods for learning require new resources, created expressly to facilitate their instruction. The wide variety of Smith System meeting tables addresses both traditional and emerging needs (with special attention paid to connectivity) identified for classrooms, labs and commons areas.

Storage

Imagine a classroom where four or five groups of six students are working on projects. The teacher circulates about, providing information, direction and encouragement. To allow for all this activity, materials and resources must be organized and readily available to students. Independent access to resources for students frees the teacher to direct and instruct as needed. That's the idea behind Cascade.

Organizing project learning.

The teacher organizes project materials in a tote tray to be assigned to a group. This makes it easy for the group to share the materials without separating (and possibly losing) any.

Cascade® Maker Table

Available with totes or shelves. Or both.

NEW!

Model 25300F
Cascade Maker Table is 36" in height and features a 48" x 48" worksurface. Shown in Whiteboard top with North Sea edge.

Cascade Maker Table

The all-new Cascade Maker Table combines up time and down time in one convenient system. The broad surface and ample storage help you re-imagine the ease and efficiency of your Maker space in a simple, mobile all-in-one unit.

- 1 1/4 inch work surface or 1 3/4" Butcherblock work surface.
- Optional doors with secure and reliable locking mechanism.
- Fully hinged doors articulate 270 degrees, free of obstruction.
- 18-gauge steel construction, formed and welded to support the entire weight of the unit squarely.
- Standard with peg-board end panels.

Cascade Two-Sided Whiteboard Unit

Smith System is helping educators maximize their shrinking learning environments by introducing the new Cascade Two-Sided Whiteboard Unit. This versatile, nomadic workhorse replaces the traditional single-purpose whiteboard with a dual-purpose mobile whiteboard plus storage. Key features include magnetic writing surfaces on the front and back of a storage unit which houses customizable, extra-wide totes. The classroom just became more flexible than ever.

- Platinum Only

Cubby Mega-Tower

Cubby Mega-Cabinet

Cubby Mega-Case

Cascade Cubby

These versatile storage units feature large cubbies for organizing backpacks of all sizes, with room left over. They offer the additional benefit of mobility thanks to their 4" or 5" dual-wheel casters. Lockable doors are available as an option, as is a Whiteboard on the Cubby Mega Tower.

The Cascade Cubby combines the quality of ready access you get with shelf storage with the organizational advantages you get with tote storage. Whether used for holding student backpacks or for learning materials, they perform well. Cascade Cubbies are the newest addition to our flexible, scalable, comprehensive solutions for organization, storage and distribution of materials within the school.

- All-steel cabinet rolls on dual-wheel casters: 4" casters for Mega-Case; 5" casters for Mega-Tower and Mega-Cabinet
- Whiteboard back available on Mega-Tower and Mega-Cabinet for + \$195.00 to list price.

19" depth for all 3 Cubbies

Double Bullet

The teacher’s role has evolved from transmitting knowledge and maintaining order to facilitating learning and managing learning materials.

That’s why the teacher’s equipment has evolved, too.

Developed in anticipation of these 21st Century needs, the Cascade Teacher’s Desk makes use of Cascade Totes that can be transferred directly to Cascade Storage Units and properly equipped student desks. This allows the Teacher’s desk to be the central hub in managing projects and learning materials.

Transfer from cabinet.

Totes from the Cascade Wardrobe can be removed and distributed as needed.

Transfer to teacher’s desk.

Totes holding materials needed for the day’s lesson can be moved to the pedestal.

Transfer to student.

Totes can be distributed to students’ desks.

Booktruck Accessories

Booktruck Top

This shelf adds utility. For Smith System 36" booktrucks, it includes pole supports in Platinum. Choose from all 14 laminate colors and 20 edge colors. To assure maximum strength, only the 1 1/4" thick top is available.

Shown in non-standard Golden Oak top with Red edge.

Model	Description	D"	W"	H"	F.C.	Cube	WT.	UPS

Color Outside the Lines.

Color can have an effect on mood, emotion and productivity, which ultimately influences student success. While there is no one-size-fits-approach to the use of color, consider letting the purpose of the room guide the color scheme selection. With a little bit of thought and planning — and access to the right furniture company — finding furniture that meets the color needs of any space can be done with ease.

See website for application and availability.

Request a Sample Kit

Go online or ask your Smith System dealer to request a sample kit. The kit includes edge molding color samples, laminate top samples, seating color chips and all the other necessary pieces to select your school's furnishings.

Standard Laminates

All 14 of the standard laminates are -60 finish. When a Wilsonart Laminate code includes "Y," "K," "-12," "-78" or "AEON," these are special laminates with an upcharge, even when it contains a "-60" or "-38."

Laminate Options

Want to specify a different laminate? No problem. If you have 20 or more tops of the same color -60 or -38 there is no upcharge. Have 20 or less or want to specify a different laminate brand? We will quote the job for you, just provide the laminate code and finish style.

Design Resources

Smith System furniture is available on all popular specification software, including:

- 20/20
- Revit Files
- Project Matrix
- 2D/3D CAD Files

Standard Edge Profiles

Available in 3/4" and 1 1/4" thicknesses, Smith System tables and desktops give you the option of lending the tops of the room a light or substantial feel. Similarly, our edge band treatments give the choice of curved, bullet or bumper edges.

QuickShip

All 14 standard laminate colors and 20 bumper edge colors are part of the QuickShip program. QuickShip lead time for 20 bumper edge tables and 40 chairs is five business days, though this may extend during the busy summer season. Please call for specific availability. All tops are made to order and not returnable.

Standard Laminate Options

Formica® Markerboard Options

ImagiGrid consists of a 2.5 cm square grid pattern.

Markerboard laminates have a limited 1-year warranty. These laminates are not part of the QuickShip program. \$300 upcharge for markerboard tops. All tops are made to order and not returnable.

Standard Color Options

See product page for application and availability.

Standard Top and Edge Options

Choice 1		1 1/4" top	3/8" Bumper T-Mold	
Choice 2	(D)	1 1/4" top	4mm T-Mold	
Choice 3	(C)	3/4" top	4mm T-Mold	
Choice 4	(V)	3/4" top	Bullet T-Mold	

Available in 3/4" and 1 1/4" thicknesses. When choosing (D, C, V) of top and edge molding, put the designator at the end of the model number. Example: 04500V = Model 04500 with a 3/4" top and a Bullet T-Mold edge. Consult the specific product page for available options.

Power Options

This symbol indicates you can add power to select tables.

You will find the "ADD POWER" logo throughout this catalog. It signifies which Smith System tables are compatible with our power units.

When ordering, please submit a drawing with your order to indicate the desired positioning of the power unit on the work surface. All power accessories are special order, a custom feature per table and are non-returnable. For more information call 800.328.1061.

Customer Service, Ordering, Terms and Freight.

PURCHASE ORDERS

Be sure to include: **1.** Quantity **2.** Model Number **3.** Description **4.** Color choice (top, edge, frame color for tables, and shell and frame color for chairs) **5.** Price for each item, including quote number.

Smith System accepts orders via:
 - email: smithfax@smithsystem.com
 - fax: 972.398.4051

Cancellation or modification of orders must be submitted to Smith System in writing. In some cases a cancellation fee may be charged if raw materials, work in progress or special products are involved. All tops are made to order.

PRICES

All prices shown are ex works; Carrollton (zip code 75006), Texas. Prices are subject to change without notice. Freight charges for shipments are prepaid and added to the invoice.

For delivered pricing or delivered and installed pricing, Smith System produces a price book based on shipping zone.

TERMS

Invoice terms for credit accounts are NET 30 days. Orders are invoiced on day of shipment. New customers and international customers are cash in advance.

Smith System accepts school purchase orders and credit cards. Credit cards are accepted for first order only at standard discount. Smith System accepts Visa, MasterCard or American Express.

QUICK SHIP/SHIPPING LEAD TIMES

All furniture is made to order and part of the Quick Ship program. Quick Ship items are designated in the catalog with Quick Ship. There are 14 Quick Ship laminate colors and 20 bumper edge colors. Frame color availability is specified on the catalog page.

Quick Ship lead time for 20 bumper edge tables and 40 chairs is 5 business days, though this may extend during the busy summer season. Please call for specific availability. If the product components are in stock, they will ship as soon as possible. Non-Quick Ship lead time is 8 to 12 weeks from the time of your order. Call Smith System with questions.

Shipping date is confirmed upon receipt of order. Every attempt will be made to meet that shipping date. However, it is subject to change without prior notification. Smith System reserves the right to discontinue products and change product specifications and prices. We do not pay for split shipments.

DELIVERY

Shipments are sent prepaid with charges added to the invoice. Product shipping weights are for product only. LTL shipments are sent on pallets. Pallet weights will be added to total weight for LTL shipments. Standard LTL shipments do not include inside delivery. Inside delivery is available. Inside delivery requests need to be on the order and appropriate freight charges will be added. Some products can ship UPS. For orders that ship UPS, inside delivery is included in freight charges. Smith System will determine the mode, method and carrier which meet the best delivery criteria.

FREIGHT

Do not refuse freight because of damage or shortage. All merchandise is packed to comply with carrier requirements. For your protection all shipments should be carefully inspected by the consignee before acceptance. The delivering carrier should be requested to record on the delivery receipt any damage to goods or cartons at time of delivery. Also, any shortages should be noted on the delivery receipt. If further damage is found after delivery, immediate inspection by the delivering carrier must be requested. The delivering carrier must be notified at

once of concealed damage. All cartons and merchandise must be held for inspection. Carrier liability ceases after 15 days.

Smith System will assist customers at all times to obtain claim settlement, but the consignee must take the necessary steps to obtain the proof of loss and damages. If customer selects freight carrier, customer is responsible for any freight damage claims. NOTE: Carriers are not responsible for damage or shortage after the delivery receipt is signed without a damage or shortage notification.

Smith System delivers to all 48 continental states. All orders delivering to other states and international locations are ex works Carrollton (zip code 75006), Texas.

CHARGE BACKS

The tare weights and dimensions listed are estimated; therefore Smith System will not be responsible for freight costs associated with these variances. LTL Shipments go on pallets, weights vary.

RETURNS

All tops are made to order and are not returnable. Initiation of a returnable item must begin within 14 days of delivery. Smith System will be unable to accept an item not reported within this time period. No goods will be accepted for return without prior authorization. Agreed returns will be subject to 30% restocking charge, plus any return carrier charges. Any unpacked, used or assembled item will not be considered for return.

WARRANTY

Smith System has a Limited 12 Year Warranty with Lifetime Frame Warranty. For complete details and a copy please contact Customer Service at 1.800.328.1061 or 972.398.4050.

Smith System is 100% UL Greenguard Gold Certified For Children and Schools CertifiedSM on our complete product line.
