# Book Jacket Cover Basics

- Brodart Book Jacket Covers (BJCs) represent the largest variety of style formats in the industry. They also offer great convenience features like folding guides, anchor tabs, and adhesive strips.
- Brodart BJC's are designed to protect your book's cover and/or dust jacket from scratches, wear and tear, fingerprints, and moisture.
- With just three basic choices, you can locate the cover that best meets your needs.

## First Choice: STYLE

### Adjustable

These covers are sized to fit various book heights within your collection. For example, if you have 9"H books and 10"H books, they can both be covered with 10"H covers.

### Exact Fit

These covers are designed to fit a specific book height without the need for adjustment.

## Second Choice: FILM

### Polyester

Chemically inert, archival-safe, and durable material that will not stretch or yellow over time; recommended for circulated volumes. Available in lo-luster (to hide imperfections) and super clear (to show off new dust jackets). Available in 1.5-mil and 2-mil thicknesses.

Ideal choice for circulated books.

### Polypropylene

Soft, flexible, quiet material that will stretch but will not tear; recommended for non-circulating or personal collections. Available in non-reflective (to hide imperfections) and clear (to show off new dust jackets). Available in 2.5-mil thickness.

Best for home collections or non-circulated books.

## Third Choice: FORMAT

### Sheets

For fast, easy, convenient application, sheets are pre-cut to specific book heights and widths. Packed in acid-free shrink wrap to prevent shifting, folding, and damage. Available in packs of 25 or 100.

### Rolls

For cost-effective application, rolls may be cut to length per book. Rolls are packaged in Brodart's guaranteed SafePack box with exclusive plastic supports to prevent crushed corners.

## Convenience Features:

### Perforated Folding Guides

Guides enable a precise fold and are spaced at 1/8" increments.

### Anchoring Tabs

Self-adhesive tabs with release back liners anchor the book jacket cover to the paper backing.

### Continuous Adhesive Strips

One adhesive strip with release back liner anchors the book jacket cover to the paper backing.

## 1.5- & 2-MIL POLYESTER

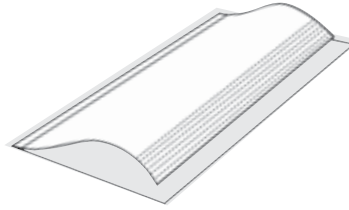

### Just-A-Fold

Convenient perforated folding guides

- For library and home collections
- **Acid-free**; will not yellow or crack with age
- Sheets are packaged in quantities of 25 or 100
- Rolls allow you to cut the length you need

**Same Day Shipping/SafePack to prevent damage**

**Note:** **L = Long: 2" longer than standard length.**  
**XL = Extra-Long: 8"-9" longer than standard length.**

## BASICS FOR APPLYING DURASAVERS...

- **Separate Plasti-Kleer DuraSaver** into two pieces by gently pulling apart at the pre-scored seam.

- **Insert front cover** of your book into the pocket on the larger piece.
- Insert the back cover into the pocket on the smaller piece.

- **Lay book face down** and align top and bottom edges.
- Remove the release liner from the adhesive strip and press.

- **Burnish the seam** using a bone folder.

• Insert the front cover into the pocket.

• Insert the back cover under the adjusting strips.  
• Close and insert the flap under the strips until a snug fit is acquired.

### Adjustable Slip-Covers

Reusable softcover protection

- One-piece heavy-duty 7-mil vinyl construction protects spine and cover
